

Adriano Chicco

Con questo documento, messo in internet a disposizione di tutti, intendo rendere omaggio ad un grande compositore, molto conosciuto anche come autore di libri. Infatti Chicco scrisse il *Dizionario enciclopedico degli scacchi*, *Il libro completo degli scacchi*, entrambi in collaborazione con Giorgio Porreca, *Storia degli scacchi in Italia* invece scritto con Antonio Rosino e altri libri ancora. Maestro Internazionale della Composizione, egli compose circa 540 problemi di vario genere, fra i quali 118 premiati.

Nello scorrere il documento bisogna tener conto che Chicco ha composto e pubblicato per alcuni decenni, un arco di tempo notevole, in un'epoca in cui nascevano idee tematiche che a noi ormai sembrano obsolete, ma ciò nulla toglie, ovviamente, al valore assoluto dei suoi problemi.

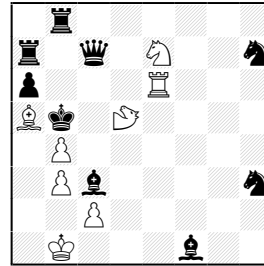

Qui di seguito troverete circa 100 diagrammi, tutti premiati, ma alcuni demoliti (a quei tempi non c'erano computers...). Troverete anche alcune correzioni ai suoi lavori, fatte da altri compositori. All'appello mancano alcuni problemi premiati, pertanto in futuro questo file potrebbe essere aggiornato.

Le soluzioni sono in notazione francese (R=, D=, T=, F=, C=), questo perché i problemi li ho cercati nel database elettronico Winchloe, pertanto mi è doveroso ringraziare l'autore del programma Christian Poisson e tutti i collaboratori che nel corso degli anni hanno inserito i problemi.

Ogni diagramma ha dei commenti, automatici, creati dal programma suddetto. Non ho aggiunto nulla a tali commenti. Per quanto sia davvero fantastico che un programma riconosca i temi e gli effetti, invito i lettori a tener conto del fatto che è pur sempre una macchina. Circa i pezzi e le condizioni eterodosse, invito i lettori a informarsi da se; non mi è stato possibile elencare le loro particolarità.
